SKILLS

- Design and implementation of test suites and test cases.
- Bug and task management: Jira and Trello.
- Advanced filtering: JQL.
- Version Control in AAA Projects: Perforce (P4V).
- Using In-House Engine and Debugging Tools.
- Execution of automation tests.

LANGUAGES

Spanish: Native

English: B2

Alberto Villegas

Quality Assurance Tester

ABOUT ME

I've been fascinated by video games my whole life, but I didn't initially decide to pursue this career.

After earning my **degree in history** and spending a few years studying and working abroad, I realized I wanted a job I was truly passionate about.

That's how I started working as a **QA tester** at an **indie studio** in 2024, and the following year I was lucky enough to join **MercurySteam** as an **internal development tester**. Today, after nearly **two years** in the video game industry and having built a solid **theoretical foundation**, I remain motivated and happy to be doing what I love.

EXPERIENCE

Internal Development Tester

05/2025 – 06/2026

Mercury Steam | Project: Metroid Ravenous

- Learned how to manage **delivery deadlines**, adapting **testing methodologies** and **reporting styles** according to the specific needs of the project.
- Focused primarily on **bug reporting**, utilizing **JQL** to filter active tasks and issues. Also created **Jira filters** needed for day-to-day work.
- Gained experience using **Perforce**: downloading **daily builds**, using **shelves** to review changes prior to implementation and updating **documentation** related to my department, such as test cases.
- Developed practical skills working directly with **console DevKits** and utilizing complex **debugging tools** to analyze **logs** and **unexpected crashes**.

Quality Assurance (QA) Tester

10/2024 – 04/2025

Hungry Pixel | Project: Netherworld

- Learned to effectively use **testing techniques** such as **exploratory testing**.
- Developed an efficient **communication** across the team, making the debugging process as smooth as possible by effectively reporting issues through **Trello**.
- Helped design certain **mechanics** and **levels** through my work as a QA tester.

EDUCATION

Degree in History

2024

Universidad de Granada (UGR)

- Specialized in **Contemporary History**, believing that this period offers the best insight into understanding the world we live in today.
- Developed and honed a **scientific and critical approach** to analyzing sources and media, crucial for my studies and research.
